Weakness

1. Low thrust to fundamental and applied sponsored research projects and publications in journals with higher impact factor
2. Lesser thrust to interdisciplinary and inter faculty research
3. Seasonal fluctuations in patient flow, linked to agriculture, monsoon and migration; difficulty in follow up
4. Rural location is both a strength, weakness as well as challenge; young faculty are not attracted for a rural service and career; issues of faculty retention and attrition
5. Difficulty in getting the specialized visiting and guest faculty as well as resource persons due to rural location
6. Non availability of government health insurance schemes to special dental care, affecting poor and special children

Opportunities

1. Starting the super specialty education, services and health care such as pediatric surgery, nephrology, urology, neurology, and cardiology
2. To promote inter disciplinary sponsored research with clear objectives
3. To evolve a HR policy for attracting faculty from metros to stay in rural areas
4. Institutionalization of research culture; every faculty (medical, dental, nursing and physiotherapy) can start their peer reviewed journals
5. To utilize the abundant clinical materials for research
6. To start solar energy as a means of energy conservation
7. Scope for medical tourism based on ambient air and water quality; being connected to tourist spots such as Shridi, Nashik and Aurangabad
8. To upgrade the existing PG department of Oncology and Radiotherapy as super specialty department
9. To get accreditation by NABH, and NABL

Challenges

1. To get funds from national agency to a private university
2. Migratory labour population affecting the patient inflow and follow up
3. Attracting specialty and super specialty consultants to a rural area
4. Absence of clarity on health insurance policy in tertiary health care
5. Dual responsibility and accountability of clinicians between teaching, research and patient care 24X7
