the basic terminologies “unlearning”, “relearning” and “elearning” that allow us to develop skills and abilities that will help us to succeed, and Unlearning is a tool that allows us to learn from a previous experience or pattern, Relearning also known as the Savings method, is a way of measuring retention by measuring how much faster one relearns material that has been previously learned and then forgotten. The webinar was interactive and impactful. In a nutshell, Dr. Farhan Zameer explained the importance of pedagogical paradigms: unlearning, relearning, and Elearning and how to teach slow learners (One of the best ways to engage slow learners is through firsthand learning activities, This learning involves physical activity, allowing for a tactile experience that can help students retain and understand information better than simply reading or listening to lectures), and motivate students (Set clear learning goals, Make learning convenient, Get creative with course content), providing job-related information, and how to clear student’s doubts (The first rule for clearing your doubts is - not to feel shy, and a student should not ignore their queries).

The webinar was conducted via Zoom meeting from 10:00 A.M. to 1:00 P.M. Dr. Raghavendra HL, Director, CBT, PIMS (DU) welcomed Dr. Farhan Zameer. The webinar was coordinated by Dr. Sonali Das Associate Professor at CBT, PIMS (DU), and Dr. Faiyaz Shaikh Assistant Professor at CBT, PIMS (DU). The Webinar on “Pedagogy Paradigms: Unlearning, Relearning, and Elearning” was participated by 36 students of CBT-PIMS (DU), Loni, and is listed in (Table 1) and 36 students attended was listed in (Table 2). The overall webinar was organized and managed by the faculties of the Centre for Biotechnology (Dr. Sonali Das, Dr. Faiyaz K. Shaikh, Mr. Ganesh Vikhe, Ms. Anupa Chauhan and Ms. Anushka Sahay)
