About Research at PIMS-DU...

Research is an integral part of any academic, non-academic learning, innovations and developmental activities.

The aim is to inculcate the spirit of inquiry & scientific temper. The University appreciates and acknowledges the importance of research activities while performing its mission of providing research driven health care. The thrust areas are academic aspects of medical education and primary, secondary and tertiary health care with special emphasis on innovative rural healthcare. Multidisciplinary research addresses wide spectrum of contemporary and future issues in medical and health sciences and rural oriented problems and run in close and fulfills cooperation with national and international agencies.
