14. Whether AQAR was placed before statutory body ?	Yes
Name of Statutory Body	Meeting Date

Board of Management, PIMS-DU	22-Jan-2021
15. Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to assess the functioning ?	No
16. Whether institutional data submitted to AISHE:	Yes
Year of Submission	2020
Date of Submission	27-Mar-2020
17. Does the Institution have Management Information System ?	Yes
If yes, give a brief descripiton and a list of modules currently operational (maximum 500 words)	Management Information System Operational Modules During the period from 1st August 2019 to 31st July 2020 following Modules are operational. A) Pravara Camus Automation (Developed by Focuz Infotech, Kochi) : This campus automation software includes following modules. i) Hospital : This module includes following sub modules : a) Patient registration b) OT, c) ICU, d) FMT, e) CCU, f) MRD, g) Casuality, h) Radiology, i) Blood Bank, j) CCL Biochemistry, m) Pathology, 1) CCL Biochemistry, m) Pathology, n) Microbiology o) Extension Center etc. The patients are registered at the Patient Registration Counter and as he/she goes to the various departments for testing his/her name and other details are reflected in the concern department / module. The billings of various tests are done at various counters. Various reports of MRD and patient related reports are generated from these modules. ii) HRMS : Information of all teaching and non teaching staff and their leave records, monthly attendance are maintained . Also paysheet processing is done through this module. iii) Accounts : All accounts transactions data entry and its posting to the concern ledgers are done. The Individual Ledger, Trial Balance, Balance Sheet etc. reports of all units are automatically generated through this module. iv) Stores Purchase : All data entry of stores , purchase and quarters allocations are done and the reports of the same are

generated through this module . v) Dispatch: Inword and Outword Registers, Stamps, Postage etc. data entries are maintained and the reports of the same are generated through this module. vi) Academic : PG students records and their attendance are maintained through this module. B) TCSiON Software : This software includes four modules: i) Academic Solution : Student's personal details and academic details entries are maintained and student related reports are generated through this module. ii) Fees Fine Module : Student fees record is maintained and reports of the same are generated through this module. iii) Hostel Management : Entries of student's allocation into the concern hostel are done and their room change, check out from hostel, daily attendance of girls hostel etc. records are maintained and room allocation reports are generated through this module. iv) Feedback Module: Students are giving feedback of the teaching faculties. Their feedback records are maintained and reports are generated through this module.

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

 Preamble To use inputs from students, parents, teachers and professionals for improvement in quality of teaching learning process, infrastructure and learning resources so as to produce competent health professionals • Composion of Feedback Committee PIMS-DU Name of the Member Designation Name of Institution Dr. D.B. Phalke Coordinator, Rural Medical College, Loni Dr. S.M. Jain Member Rural Medical College, Loni Dr. Harish Saluja Member Rural Dental College, Loni Dr. Sharda Bhalerao Member Dr. APJAK, College of Physiothrpay Dr. S. N. Thitame Member Centre for Social Medicine Mr. Eknath Gavande Member College of Nursing Mr. Ganesh Vikhe Member Centre for Biotechnology • Summary of Feedback Methodology: • Formats for feedback were finalized by members and were approved by authorities of University • All forms were uploaded by IT department on TCS software • Online feedback from respective batches was collected using students mobile /desktop in internet section of library. • Collected feedback data was further tabulated, analyzed and interpreted by respective members • Report of constituent institutions were prepared in structured format and presented by respective coordinators in college council meetings. Actionable points related to infrastructure and learning resources were discussed and suggestions were taken. • Faculties with good score were congratulated by respective Principal/Director and those with average score were confidentially counselled for improvement. • Reports signed by member and Principal/Director were submitted to University with Action Taken Report, which was forwarded to BOM for further necessary action. • Following were the sets of Feedback Questionnaires : A. Feedback on infrastructure and learning resources. B. Feedback on departmental teaching learning process. C. Feedback on faculty members D. Feedback from out-going students on academic, facilities, support and services (Exit Feedback) Each question was carrying five options on Likert Scale viz Poor, Average, Good, Very Good Excellent carrying marks of 1,2,3,4 5 respectively . An additional open box of opinion / suggestions was placed at the end. Overall feedback given by the students was assessed by taking average. E. Feedback on Curriculum Design Development and Implementation. • Feedback from students is conveyed to respective faculty and department and then it is discussed and measures taken accordingly.

CRITERION II – TEACHING- LEARNING AND EVALUATION

2.1 – Student Enrolment and Profile

2.1.1 - Demand Ratio during the year

4.4 – Maintenance of Campus Infrastructure

4.4.1 – Expenditure incurred on maintenance of physical facilities and academic support facilities, excluding salary component, during the year

Assigned Budget on academic facilities	Expenditure incurred on maintenance of academic facilities	Assigned budget on physical facilities	Expenditure incurredon maintenance of physical facilites
1376.35	1254.36	419.95	707.22

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc. (maximum 500 words) (information to be available in institutional Website, provide link)

Lecture Hall Complex: The University has set standard operating procedures for maintaining and utilizing physical, academic, laboratory, library, sports complex, information communication facilities. To ensure the proper utilization of the lecture hall amnesties, lecture schedule at the institute level and department level is prepared and followed. An IQAC register is maintained in the lecture hall to ensure the utilization of the lecture hall. Teaching faculties are entering the details of their lecture like name and speciality of faculty, topic, date and time of lecture. The cleanliness is supervised by administrative officer. The complain or repair at the lecture hall complex is always recorded by the administrative officer and maintenance is done through the civil, electric, electronic or Information-communication technology department of Pravara institute of medical sciences. ICT facilities: 1. ICT facilities like internet, scanner and printers are available at the ECMC after due permission from the in-charge of the ECMC. 2. Regular maintenance of the gadgets is done by the computer and electronic electric department after online complain from ECMC. Preclinical, and clinical instruments and equipment's 1. Paradental / paramedical staff issue the dental instrument, equipment's after checking the basic formalities like receipt, investigation. 2. Register is maintained to issue the instruments and equipment's. Sports facilities • The sports facilities are reviewed and maintained by the Sports committee of the Institute monitored by the university sports committee. • Interim maintenance is performed as and when required. The condemned sports equipment's are discarded after the inspection Library Facilities: • A students on entry to the reading hall shall enter his/her particulars in the register kept at the registration counter. • He/she shall bring his/her own reading/writing material. • Reservation of chairs by keeping Bag/Baggage for self/friends is prohibited/not allowed. • Bags/Baggage is to be kept at the wooden counter on one's own risk and no Library staff will be responsible for any sort of theft. • He/she shall maintain silence and shall not disturb others in the Library. • Use of mobile (speaking/charging) is not allowed in the Library, reading hall. Students/staff carrying mobiles shall keep them on vibratory mode. • Eating, drinking, sleeping or any other activity considered un becoming of a student in the reading hall are strictly prohibited. • Gossiping/discussing with other students or group of students and loitering in the Library Hall/corridor is not allowed. • Sitting in the Library Corridor /sitting on the staircase is not allowed. • Keeping legs on the opposite chair is not allowed. Physical movement of chairs from one table to another table or physically placing chair in corridor or any other place by student is forbidden. • UG/PG students are required to sit in the respective hall meant for them. • Every students should keep his/her updated I card with himself/her self and should be produced to Library staff whenever demanded without arguments. Misbehavior of any sort will be reported to the Principal. • Any student violating these rules may be debarred from utilizing Reading Hall facility. • All users of this facility are requested to conserve electricity, switch off lights/fans where they are not

5.3.2 – Activity of Student Council & amp; representation of students on academic & amp; administrative bodies/committees of the institution (maximum 500 words)

Students Council is the committee which is responsible for all the students' activities on that particular allotted year and the work or commitment is based on the phrase 'By the students for the Students'. On every year new students council is formed on the month of August - old committee dissolves and addressed to new council with their experience and guidance. New committee from August 2018 to 2019 the whole graceful year which is filled with more new activities.

includes 2 major events Teachers Day Celebration and Garbha Night. Other activities like sports events, cultural and academic competitions. In month of October Department wise quize and eassay competions were held, which is very much appreciated. In November, academic seminar arranged for students which are conducted by Prepladder and DAMS (PG preparation classes), their guidance and approach was appreciated by Rural Medical College. • From January 2020 to March 2020 there is a big cultural fest of Pravara Medical Institutes. It is a showcase for collaborative work and participation from all 6 institutes of Pravara Medical Trust (Rural Medical College, Rural Dental College, Dr. APJ Abdul Kalam college of Phisiotherapy, College of Nursing, Centre for Biotechnology, Centre for social medicine). There were cultural activities like Drama, Dance (solo, duet, theme, Group), cultural days, Dhol-Tasha-Dhwaj Pathak, Lezim. Sports events includes all outdoors full grounds and indoors. In month of March again a guest lecture and one academic seminar arranged for the students which were conducted by Kaplan and Bhatia PG classes for students career counselling. Standup comedy and Karaoke night were the new events in which our institutes called up celebeities for performance (Sai Parvathy, Abijeet Gangully, Parvinder Singh, Sarang Sathey, Omkar Rege) All these activities ended with prize distribution and appreciation to encourage students for their performances. • Padmanjali began with the sports events which was the followed by the cultural events where on the day of Inaugural Ceremony lezim, dhol-pathak, relay matches and group dances were performed by the students. This inauguration was conducted in the presence of Honble Pro chancellor DR. Rajendra Vikhe Patil and Honble Vice chancellor Dr. Y. M. Jayaraj and all other dignitaries, also the Oath of unity was taken by the students during the march past. Later treasure hunt organized by Rural Dental College and Med-gala event was organized by the respective colleges. • Padmanjali 2020 Interact with your peers Build new connections Converge the congregations Believing on these lines, Pravara Institute of Medical Science hosted its annual fest from Jan 22 to Feb 25 this year.Apart from fun and frolic, students are provided a platform to showcase their unmatched talents. The host MBBS-16 batch left no stone unturned in putting up their managerial skills to bring out the best of event, while making sure that execution is under college framework. It all started with battles for winning Sports Trophy and ended with matching the dance steps and beats. In between were the

5.4 – Alumni Engagement

5.4.1 – Whether the institution has registered Alumni Association?

Yes

PIMS-DU: Pravara Institute of Medical Sciences (Deemed to be) University, Loni • PIMS: Pravara Institute of Medical Sciences Alumni Association was established under Public Trust Act 1950 and registered [Reg. No. Maharashtra / 605/ 2009/ Ahmednagar dated 16/2/2010.] • Registered Alumni can access the website www. Pravara.com and provide Feedback. • Alumni meet is organized for seeking feedback • Annual Alumni meet organized at Rural Medical College Rural Dental College • College of Physiotherapy organized guest lectures of two alumni members • College of Nursing having the 'Smurti' as a alumni Association • Contribution / donation from the alumni for the events. • Involving more Alumni and students (Prospective alumni) in the activities of the Association. • Institutional Alumni Committee regularly keeps alumni members updated about progress of RDC. • Alumni meets are arranged at departmental and institutional level for CDE and social meets • Career guidance by Alumini for present students • Guidelines for Masters Course for higher studies in abroad. Guidelines for clinical practice "Smruti" Alumni Association: Pravara Institute of Medical Sciences, Deemed University Alumni Association was established under Public Trust Act 1950 and registered [Reg. No. Maharashtra / 605/ 2009/ Ahmednagar dated 16/2/2010.] Registered Alumni can access the website www.

Pravara.com and provide Feedback. College of Nursing has registered alumni Association named as 'Smurti', Activities: • Alumni meet is organized for seeking feedback • Contribution / donation from the alumni for the events. • Involving more Alumni and students (Prospective alumni) in the activities of the Association. • Alumni meets are arranged at departmental and institutional level for CDE and social meets • Career guidance by Alumini for present students • Guidelines for Masters Course for higher studies in abroad. Guidelines for clinical practice • Registration of all graduates (UG PG) as alumni in SMRUTI • Contributes articles for BHARARI magazine • Conducts Alumni meet / activities • Conducts Alumni meet during Conference/ Workshop Philosophy of Alumni Association • "Smruti" the alumni of College of Nursing believe in fostering meaningful connections with nursing graduates to acknowledge their professional achievements and to kindle a sense of belonging to their Alma Mater. • "Smruti" believe that the alumni association will act as a platform for exchanging professional views, research development among the alumni members. • "Smruti" believe that the alumni association can provide opportunities for alumni part of this developmental process. • "Smruti" believe that through the media of alumni association the members can keep a track of old students, their personal and professional achievement. • "Smruti" believe that alumni association has the scope of attracting meritorious alumni to their Alma Mater which can benefit the institute and the present generation of students professionally, socially, economically and culturally.

5.4.2 – No. of registered Alumni:

3899

5.4.3 - Alumni contribution during the year (in Rupees) :

1297270

5.4.4 - Meetings/activities organized by Alumni Association :

Yes , 02 Meetings are organised on 27.9.2019 and 12.5.2020 1. General Body Meeting of SNA Unit-1 On 27th September 2019, Mr Vaibhav Bhosale, SNA Advisor organised a General Body Meeting of SNA unit for orientation of SNA unit and its activities. Lt Col Dr V Radha (Principal, CON) instructed the students regarding rules and regulations, anti-ragging etc in PIMS. 2. General Body Meeting of SNA Unit-2 On May 5th May 2020, Mr Vaibhav Bhosale, SNA Advisor organised a General Body Meeting of SNA unit for the "International Nurses Day" to be organized by Pravara Institute of Medical Sciences (DU), College of Nursing and Pravara Rural Hospital, Loni (Bk.) on 12th May 2020. (Due to Covid-19 only few students were called who are staying in quaters) Pre Preparation: The organization of International Nurses Day programme started one week ago. We the SNA unit, CON under the guidance of Principal Dr T Sivabalan divided among ourselves into various committees for effective and comprehensive execution of program 3. Magic show was performed by Dr. Pallavi Alap Deshpande-Kasliwal alumna of Dr. APJ AK,COPT 1998 BATCH .1100 audience witnessed the

program.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

• To achieve institutional Vision and inculcate Leadership University believes in decentralization and participative management. It was applied to all areas like Academic as well as Administrative Activities. • To implement and govern all these activities University has formed University level various Coordination Committees like • Academic Administration Planning 2) Research and

Collaboration 3) Faculty Development and Faculty grievene redressal 4) Extension and Outreach Activities Committee including International Cell 5) Physical Infrastructure and Maintenace 6) IT facilities and e-Learning, ICT enable Learning 7) Student Support and Student grievances redressel 8) Mentor Mentee System 9) Women Empowerment Cell Grievance 10) Anti-Ragging Cell, 11) Feedback and Analysis 12) University Level IQAC Cell 13) NIRF Committee 14) Examination Result and Review Committee. • All these Committees are given power to redress the activities and these committee cantains all the members from each constituent institutions. • All the constituent Institutions has their college council, and College level subcommittees who addresses the institution level academic and administrative activities. • Every month review of all academic and administrative activities are taken by three tier system of meeting viz on every 2nd Thursday Departmental level, every 3rd Thursday, Institutional level and on every 4th Thursday, University level meetings which ensures the practices of decentralization and participative management. • This three tier system ensures decentralization and participation upto each deparment level which results in development of Leadership qualities and decision making in administration. • Participative Management also results in sense of responsibility. • Another Participative management practice includes Creation of Incharges for academic and clinical activities. Creation of Dean post for academic activities in College of Nursing and College of Physiotherapy which also results in inculcating leadership and governance qualities amongst the Institutional level faculty members. • Rural Medical College, Loni: • Curricular implementation and governance: • The Dean, Heads of Departments (HOD), faculty and the clinical administrative set up of the institution are responsible for the ultimate delivery of the curriculum. • Role of the HOD: Responsible for curricular implementation in the department, liaises with other HODs and ensures the smooth delivery of the curriculum. Identifies training needs for faculty in the departments. • Curriculum committee (CC): It ensures that the institutional curricular plan and its delivery are aligned to and in accordance to the principles and requirements enshrined in the GMR document . Phase wise Curriculum Subcommittee (CSC): Responsible for the implementation of the curriculum in each phase, Reviews competencies for each phase and converts them into learning objectives, Prepares the timetable for the phase and presents it to the CC for approval and collects feedback and provides student support • The Alignment and Integration team (AIT): Responsible for the creating learning and assessment sessions of the Aligned and Integrated Topics (AITo) identified across phases • Medical Education Unit (MEU): MEU will support, enable and facilitate the faculty to deliver the curriculum • Internal Quality Assurance Cell (IQAC): It is responsible for the reviewing, evaluating and advising authorities of the institution on the performance of the curriculum and improvements requiredthereof. In order to ensure appropriate and adequate compliance to the regulations and the curriculum, a proactive reporting system is envisaged. This includes reporting of compliance to milestones created training and program evaluations in a half yearly basis • College council and college level subcommittees to encompass institute level academic and administrative activities. Every month review of all academic and administrative activities are taken by three tier system i.e. department, college and University level meetings. This ensures practice of decentralization. This three tier system encourages development of leadership qualities and decision making in administration. • Creation of Incharges for academic and clinical activities. • Rural Dental College, Loni: • Every department has IQAC coordinator • Committees are formed at departmental Institutional level • Duties have been allotted among all staff members • Student in charges are made to deal the day to day activities. • Sports cultural activity responsibility has been give to staff members. • Issues related to women a separate cell women empowerment and to deal with issues of woman harrasment are formed. • Dr. APJ Abdul Kalam College of Physiotherapy,

Lon: • IQAC Coordinator at the Institutional Level: • The Institutional IQAC coordinator appoints the members of the various committees and assigns duties as per the criterion., Academic Administration Planning , Research and Collaboration Faculty Development and Faculty grievance redressal ,Extension and Outreach Activities Committee including International Cell , Physical Infrastructure and Maintenance, IT facilities and e-Learning , ICT enable Learning ,Student Support and Student grievances redressel,Mentor Mentee System Women Empowerment Cell Grievance , Anti-Ragging Cell, 11) Feedback and Analysis, University Level IQAC Cell , NIRF Committee , Examination Result and Review Committee. • All these Committees are given power to redress the activities and these committee and contains all the members of the Institution • Institution has 1st year B.P.T. class coordinator, 2nd year B.P.T. class coordinator, 3rd year B.P.T. class coordinator and 4th year B.P.T. class coordinator. The role of class coordinator is to monitor students theory, practical lectures and attendance. • The PG Coordinator takes care of PG activities (Journal club, Seminar, Case Presentations, Dissertation Presentations). • The internship incharge takes care of the clinical duties, attendance of Physiotherapy Intern Students. • • College of Nursing, Loni: • Creation of Separate Faculty for Nursing Sciences along with two Boards (BOS in Clinical Nursing studies and Allied nursing studies - CNAN) and (Board of Studies in Reproductive, Child, and Community health nursing studies - RCCN)

6.1.2 – Does the institution have a Management Information System (MIS)?

6.2 – Strategy Development and Deployment

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Yes

Strategy Type	Details
Curriculum Development	Pravara Institute of Medical Sciences(Deemed to be)University: • Curriculums for all courses are usually developed by the respective council which regulates majority of the health sciences courses. • The University has developed the quality policy and has ensured adherence to the same and as validated by external quality audit agencies such as MCI, DCI, INC, IAPC, and UGC etc of their quality sustenance. The constituent colleges/Institutes have continued their quality sustenance and quality enhancement initiatives after establishment of the University. Implementation of CBCS in phasewise manner is in process. • Curriculum Development is ongoing process where in major changes are usually done in every 3 years or if it is developled /changed by central regulating council. Minor changes are done every year through Board of Studies (BOS) with approval from Academic Council (AC) and Board of Management of University. • Curriculum
	of UG/PG courses are updated as per guidelines of University. [Seminars,
	group discussions, Journal club, Death

audit, Clinical meet, case discussions, log book assessment] • Revision of New under graduate and Post Graduate Syllabus was implemented for the year 2019-20 • Feedbacks on curriculum from various stake holders were taken. • Academic and Administrative Audit was done by internal members from IQAC • Creation of separate faculty for Nursing with two Board of Studies (BOS) was done in this academic year. Rural Medical College, Loni: • The University follows a systematic process in the design and development of the curriculum. • Feedback from the employers and alumni gives the direction on the required modifications in the curriculum. • Major revision of the MBBS and PG (MD/MS) curriculum have been done during this year. It was done by considering the feedback from all the stake holders. • Revised curriculum was sent for peer review by renowned educationists and industry (Corporate hospital). After incorporating those changes, it was put before Academic Council and Board of Management for final approval. 09 Value-added courses have been started during this year Rural Dental College, Loni: • Curriculum is developed as per the Guidelines of DCI PIMS (DU), Loni- the affiliating University. • The members of Staff on various boards of studies sent suggestions for improvement approval by BOS academic council. • Institutional Examination and IQAC aligns the curriculum innovations with the institutional goals and objectives with emphasis on providing academic competence, health care delivery and research. • Feedback on curriculum is taken from students and forwarded for analysis and reforms, if required. • All the departments also conduct periodic meetings to review the curriculum and forward suggestions to the IQAC. Dr. APJAK College of Physiotherapy Loni: • Curriculum Development is ongoing process where in major changes are usually done in every 3 years • .The members of Staff on various boards of studies sent suggestions for improvement approval by BOS academic council. Meetings are held among staffs for upgradation and improvemet of Syllabus. College of Nursin, Loni: • Feedback on curriculum

		from various stake holders • Academic and Administrative Audit • Curriculum
		development committee • Creation of
		separate faculty for nursing with two
		Board Of Studies (BOS) Centre for
		Biotechnology, Loni: •
		Curriculum/Syllabus upgradation by
		organising BOS meeting. • Execution of
		CBCS pattern in the curriculum of
		undergraduate programme • Feedback from
		stakeholders Centre for Social Medicine
		Loni: • The institutional think tank
		(full time, part-time and adjunct
		faculty) of the Centre suggests new
		additions/deletions in the existing
		curriculum or new courses / programs,
		on the basis of the emerging topics,
		updates that are occurring in the
		subject field and in the industry. All
		such suggestions and new draft
		curriculums are compiled and discussed deliberated in Board of Studies (BoS)
		of Social Medicine. The recommendations
		of curriculum development approved by
		the BoS of Social Medicine are
		submitted to the Academic Council and
		Board of Management of the PIMS- Deemed
		to be University for approval and
		notification for implementation.

Rural Medical College, Loni: • ICT enabled classrooms with

demonstration rooms and digital teaching boards for interactive teaching. • Postgraduates of various disciplines are deputed to institutes of national repute for high end training and exposure. • Teachers are constantly being trained for upgrading their knowledge and skills by conducting FDPs. Faculties are also encouraged to undergo advanced training like FIME, FAIMER etc. • Moot Court Trials and regular field visits to give exposure to the real social situations to the students, to enrich classroom teaching. • Faculty are in constant touch with students even after working hours with Google classroom App. • Emphasis on Self-directed learning by conducting Problem Based Learning sessions regularly. • Faculty development programmes conducted by MET unit a nd teachers are trained. • Research projects for undergraduates. Rural Dental College, Loni: • Aims and learning outcomes of all lectures and modules are clearly defined and aligned with content and assessment. • Lesson plan for the lectures is planned and updated and monitored regularly during the documentation. • Use of ICT based smart board classroom with live video demonstrations in teaching learning process. • Other innovative teaching modalities apart from didactic lectures like webinar, video presentation, brainstorming, random questioning activity, student centric learning and tell-show-do technique are practiced to improvise the teaching learning process. • Teaching and learning is student-centered with students being encouraged and supported in taking responsibility for self-directed learning in order to develop a culture of life-long learning. • Faculty development programs are conducted regularly to facilitate a variety of teaching methods. • Regular feedback and course evaluation is undertaken. Dr. APJ Abdul Kalam College of Physiotherapy, Loni: • Teaching and Learning: Academic debates are conducted to improve self confidence among students and zestful learning. World Café is an innovative method designed to create a safe, welcoming

environment to intentionally connect multiple ideas and perspective on a

topic by engaging students in several rounds of small- group conversation. Seminar, Journal Club and Case presentation are conducted every week for post graduate students. Bed side clinical teaching is taught to students during clinical hours in their respective wards. Online feedback taken from students regarding teaching process. Staffs attend workshop on teaching and learning methods and improve their teaching skills. Evaluation of performance of students and remedial measures taken periodically. College of Nursing, Loni: • Annual calendar of events • Curriculum guide as per master rotation plan, clinical rotation plan • ICT enabled teaching and learning • E learning modules , Problem based learning, micro teaching, journal clubs and log books Centre for Biotechnology, Loni: • Use of audio- visual aids for teaching purpose • Technique enabled teaching learning practices • Academic Calendar is revised and implemented. • On line classes were conducted during lockdown period. • Co-Po, PSO is prepared • Introduce to value added programme • Minor research project for students • Experimental learning, Journal club, Seminar Centre for Social Medicine, Loni: • As the programs offered at the Centre are interdisciplinary in nature, the full time faculty of the centre, including field instructors, consistently engage with the other faculty members of the Constituent Units of PIMS-DU as well as other Indian and international visiting / adjunct faculty of the Centre with a view to nurture and strengthen the teaching and learning methods and technologies in all the graduate, diploma and certificate programs offered at the Centre. The crossfertilization of ideas across domains, disciplines and constituent units contributes to widening the knowledgebased and community engagement and contributes to mutual environment of learning. In terms of pedagogy, emphasis is retained on multiple learning contexts with extensive field community work, internship, hands-on and project based training, assignments, course work, seminars, journal clubs, research and classroom

	discussions
Examination and Evaluation	Pravara Institute of Medical
	Sciences(Deemed to be University),
	Loni: • University is following the
	guidelines laid down in Evaluation
	process by MCI, DCI, INC and BOM of
	PIMS. • Internal Assessment and
	University Examinations were in the form of Therory and Practicals Vivo-
	Voce • Faculties are trained in
	Question paper designing during Faculty
	Development Programmes (FDPs) •
	Procedure of Double Assessment System
	of Theory Answer Books is adopted by
	the University which means the first
	and second assessment of the answer
	books done by first and second
	examiners respectively at a central
	assessment programme preferably both
	are external examiners / assessors. • Third assessment : means assessment of
	theory answer books done by third
	examiner, if difference of the marks
	between first and second examiner is
	more than 15 • Objective Structured
	Clinical Examination (OSCE) OSPE
	problem based learning • Annual plan of
	examination and evaluation is done by
	separate Examination Cell • Continuous internal assessment is for almost all
	the courses. • Photocopy facility,
	retotalling of answer sheets is also
	adopted by the University. • Question
	banks are being prepared and uploaded
	on University website • University has
	adopted CBCS (Choice Based Credit
	System) for some courses Rural Medical
	College, Loni: • Examination schedule with other calendar of events is
	beingcomplied. • Examination process is
	computerized with state of art
	information system. • IP surveillance
	cameras andjammers are deployed in the
	Examination Halls and a Committee to
	handle cases of malpractice. •
	Centralized valuation-Bar coding and
	double valuation is in place for
	undergraduates. • UG and PG Results are declared within 5 working days from the
	last day of the examination. •
	Supplementary Exam for MBBS Phase-I
	within 60 days of declaration of the
	main examination result. • Registered
	for National Academic Depository (NAD)
	with CDSL depository. • CBCS has been
	implemented for Pre Ph.D and B.Sc.
	(MRIT). Following guidelines laid down
	by MCI. Internal and University

examinations are in the form of theory and practicals. Double assessment system of theory answer books is adopted. Rural Dental College, Loni: • The Institute strictly follows the guidelines laid down by its Governing Bodies (PIMS University DCI). • Notifications regarding examinations and results are displayed on Institutional website. • Pre-clinical clinical evaluation (Clinical post End viva). • Summative and Formative assessment system is followed. • Oral Viva Cards for assessment process. • OSCE and OSPE examination system is followed. • MCQs system is implemented in Formative assessment. Dr. APJ Abdul Kalam College of Physiotherapy, Loni: • Three periodic internal theory and practical examinations are conducted every year. Objective structured clinical examination (OSCE) is used in practical examinations for undergraduate students .It is used to test clinical skill performances and competence in skills such as communication, clinical examination, exercise prescription, joint mobilization, and manipulation techniques. One terminal and preliminary internal examination was implemented from the year 2018-2019. • University Examinations are conducted as per the guidelines of PIMS DU approved by Academic Council. Double evaluation assessment of the answer books done by first and second external examiners respectively at a central assessment programme. Third evaluation assessment of theory answers books done by third examiner, if difference of the marks between first and second examiner is more than 15. College of Nursing, Loni: • Photocopy facility • Question banks • OSCE for PG • Double Evaluation Centre for Biotechnology, Loni: • Internal Assessment, Practical's Vivavoce, Seminar • University Examination Centre for Social Medicine, Loni: • For semester end examinations and evaluations, each course of study, credited or non-credited, taught or field related, or research project, are assessed through periodical internal examination, class presentations, reports or dissertations, faculty assessment of class participation, written assignments, reflective

1.1.1	
	journals or fieldwork reports,
	observation by faculty, with prescribed
	weightages, as per a pre-defined
	schedule, which is provided at the
	commencement of a semester. These may
	involve individual or group work. At
	the end of the Semester, University
	theory and practical examinations and evaluations are done.
	evaluations are done.
Research and Development	Pravara Institute of Medical
	Sciences(Deemed to be) University,
	Loni: • Research Cell (Directorate of
	Research) has been established under
	the chairmanship of Director, Research
	and Development and seed money is
	provided to the faculty members who are
	conducting Research in the form of research incentive scheme. • The best
	research incentive scheme. • The best research publication receives
	"Chancellor's Rolling Trophy" for Best
	Research Paper and cash award every
	year. • Research Incentives for
	publication of papers in international
	and national Journals by faculty
	members are given (Especially Indexed
	in Scopus, WOS, Pubmed and UGC listed)
	• The University is actively involved
	in National and International
	Collaborative Programs till today, the
	University has 34 international
	collaborations. • The University has
	published research papers in various
	regional National and international
	journals during the year 2019-20 • Ph.
	D Programmes are started in all
	disciplines where PG courses are
	conducted. • 2 to 3 Workshops on
	Research Methodology for faculties,
	Post Graduatge Students and Ph.D Students at Research Directorate Level
	are being arranged every year •
	Students are encouraged to undertake
	research activities like STS ICMR
	Projects. In addition to that Pravara
	STS Project Scheme is also introduced
	in PIMS-DU which provides Special
	Research Grant to the under graduate
	students for the Research purpose whose
	projects are not selected under ICMR
	STS • Faculties who are undergone
	Faculty Development Programme ar
	motivated to undertake the educational
	Research as well. • To facilitate the
	Research free internet facility is
	provided in library to both UG ,PG Ph.D
	students and Faculties • Reimbursement
	of Registration TA DA to faculty for
	scientific paper presentation is given
	·

 Faculty and Students participation in externally funded Institutional research projects • Faculties and Students are motivatied to publish Research publications in reputed journals of high impact factor viz. Pubmed, Scopus, Web of Science and UGC care listed journals. Rural Medical College, Loni: • A special authority, Dean RandD has been created. University promotes research by allowing interdepartmental facility utilization and by providing research fund to the staff and Ph.D. scholars to carry out quality research. • Faculties are trained or sensitized for grant proposal writing to external funding agencies such as DRDO, ICMR, VGST, DST etc. and encouraged to file for patents. • Financial assistance/incentive policy for research promotion has been revised during this year. • In order to promote original research, several committees have been established such as Research Review Committee, Research Grant Committee, IEC and Research Advisory Committee. University encourages both UG and PG students to undertake research projects by providing financial assistance. Research methodology workshops for PG and Ph.D students. Students are encouraged to undertake STS ICMR projects. Introduced college level STS projects. Rural Dental College, Loni: • Directorate of Research Institutional ethical Comittee (IEC) closely monitor progress of research related activities of faculty students. • IEC advises researchers regarding latest rules and regulations pertaining to research given by DGCA ICMR. • Upkeep of Centralized Research Lab and its functioning. • Promoting research culture by organizing various guest lectures and FDP on research methodology. • Intra-mural grants provided by PIMS for the research. • International collaboration, MoU with other Organizations, Institutions and Hospitals being given adequate thrust. • Promotion policy based on research publication. • Incentives and recognition of faculty excelling in research, publication and patents. Dr. APJAK, College of Physiotherapy, Loni: • Staffs, Post graduates and Interns are encouraged to do research

publications in reputed journals indexed by Scopus, Pub med and UGC approved journal. Staffs, Postgraduates and interns attend research conference and workshop every year by reputed faculty. Staffs and students are motivated to apply for research incentive scheme of PIMS DU. Staffs are motivated to pursue Ph.D. and post doctoral research studies. College of Nursing, Loni: • Journal clubs (for faculty and PG) • Research Incentives Scheme for research and publication • Learning resource materials (journals, e-journals) for literature search • Pravara STS scholarship • Up gradation of learning resource materials (Books / Journals) • Wi-Fi facility • Availability of skill labs Centre for Biotechnology, Loni: • Institutional research projects, Paper Presentation, Publications. • Incentives to faculty from university for project investigation and publicationfaculty/Ph.d research scholar are encourage to present paper at national/ international level and published paper in university/ UGC/ SCOPUS journals. • Interdisciplinary research promotion • Incentives to student and faculty for paper/poster presentation- students participated and presented paper at national conference on Lovely Professionals University, Ludhiana. • Financial incentives are provided to faculty/ students for paper/ poster presentation in seminar/ conference in terms of registration fees. • Collaborative research project with Drake University was continued on tribal research Centre for Social Medicine, Loni: • The Institutional Research Committee periodically meets to discuss and approve the Postgraduate student research projects. All the Ph.D student, Faculty and Institutional research projects, either internal or external funded, are submitted to PIMS-DU Institutional Research Ethical Committee for approval. After PIMS-DU Ethical Committee Approval, the mandatory MoUs are signed with the national and international external collaborative /funded organizations for further implementation of the projects. All guidelines of the Directorate of Research and the Research Cell of the

University are followed.

Library, ICT and Physical	Pravara Institute of Medical
Infrastructure / Instrumentation	Sciences(Deemed to be) University,
	Loni: Library: • Central Library of
	PIMS is fully digitalized with Tech
	Focuz LMIS Version 2.7 with Library
	Module Administration, Circulation,
	PAC- Online Public Access Catalogue
	made available to users/ staff through
	intranet. • Library is Associate Member
	of Inflibnet, UGC Info net, digital
	library consortium. • Library is user
	member of MUHS digital library, Nashik.
	• The departments provide list of
	relevant text reference books, journals
	etc on a yearly basis and thereafter-
	central purchase committee makes the
	purchase. This ensures availability of
	recent and good quality books in the
	library. Library facilities
	strengthened every year. • Wi-Fi
	facility made available in the Central
	-
	Library as well as in colleges/Institutes premises • Medline
	facility available • 24hrs reading
	facility made available throughout a
	year. • Photocopy facility have been
	made available in Central Library •
	Barcode Technology is used of
	circulation of books • Purchase of more
	text books, Reference Books,
	Dissertations and subscription of more
	online as well as print journals are
	being done. ICT : • University is well
	equipped with all new ICT facility in
	the campus for students and faculty
	members • Campus is well connected by
	fiber optic LAN and Wi-Fi facility
	having leaseline of 175 Mbps which is
	freely available for students and
	faculties 247 Physical Infrastructre
	and Instsrumentation: • This is as per
	the guidelines given by regulatory
	authorities such as MCI, DCI, INC etc.
	(We have added following facilities) •
	Facilities are reviewed and new ones
	are purchased as per the requirements
	of the various departments for academic
	as well as patient care purpose. •
	Consturction of new boys and girls
	hostel to existing is going on •
	Construction of New Water Purification
	Plant was undertaken and it is near to
	completion. • Up gradation of
	departments and the laboratories in a
	phase wise manner is being regularly
	done • Well equipped Molecular Biology,
	Animal Tissue Culture, Plant Tissue
	Culture, Bioinofmatics General

6.5 – Internal Quality Assurance System

6.5.1 - Whether Academic and Administrative Audit (AAA) has been done?

Audit Type	Exte	ernal	Internal			
	Yes/No	Agency	Yes/No	Authority		
Academic	Yes	MCI, DCI, INC etc	Yes	IQAC,PIMS-DU		
Administrative	Yes	MCI, DCI, INC etc	Yes	IQAC,PIMS-DU		

6.5.2 – What efforts are made by the University to promote autonomy in the affiliated/constituent colleges? (if applicable)

• The institution and its leadership are defined within the university structure. The university and institution policies and procedures clearly define respective authority and responsibility. The university and institution leadership collaborate to secure adequate human, physical, technological, educational, and financial resources to maintain and advance the program. The institution contributes to the activities and governance of the university. The following mechanisms provide for autonomy of the institutions • The Governing body for individual college comprising of representatives from University decide the strategic plans and requirements of the institutions • The Board of Studies (BOS) is empowered to recommend Syllabus/ curriculum changes or changes to the evaluation/assessment methods. • The Deans/Principals of the individual colleges are members of the Board of Management (BOM), the highest decision making body where they can raise their concern and suggestions of any. • Constituent college Principals/Senior faculty are members of academic council, planning and monitoring board, library committee, hostel committee, research coordination council, hostel committee, IQAC and many others wherein they can raise concerns pertaining to individual institutions • The Colleges have the liberty to make their own budget and procure instruments and equipments for infrastructure development of each Department . Care is taken to follow the rules of MCI, DCI all statutory bodies regarding attendance, internal assessment examinations, and practical examinations. • Allows to plan implement the changes in curriculum / syllabi including budget • Allows the implementation of curriculum as per the purview of council requirements .

Recruitment and promotion of faculty based on statutory guidelines. Further it is expected that academic staff of the college will have the responsibility and opportunity to suggest the changes to any of these policies, as the need arises, through the established mechanisms of faculty meetings and retreats. Rural Medical College Loni: Dean RMC is member of Board of Management, Academic council, planning and monitoring board, library committee, hostel committee, research coordination council. Board of Studies is empowered to recommend syllabus/curriculum changes or changes to the evaluation/assessment methods College propose their own budget, procure instruments and equipments for infrastructure development of each department. Rules of MCI are followed for attendance and examinations. Rural Dental College Loni: The institution and its leadership are defined within the university structure. The university and institution policies and procedures clearly define respective authority and responsibility. The university and institution leadership collaborate to secure adequate human, physical, technological, educational, and financial resources to maintain and advance the program. The institution contributes to the activities and g

Code of conduct for : Non-Teaching staff	02/08/2019	Code of Conduct is made known to the non-teaching staff when they join Institute. They are also oriented with the same during induction orientation programme and capacity building Programmes as well. The supervisory authorities ensure adherence of the Code of Conduct by all concerned. It is given due weightage in the self appraisal report as well as the annual Confidential report of the concerned employee. Any deviation thereof is Dealt appropriately by discipline enforcing authority.
Code of Conduct for : Students	02/08/2019	Code of Conduct for students is distributed to all the students at the start of the academic Year when they get admission to the constituent faculty. The code of conduct is made known to all the students and the significance thereto, at the time of induction programme. The code of conduct handbook is appropriately upgraded and revised every five years. This booklet has led to improvement in behaviour of the students and also has improved the overall disciplines.
Code of Conduct for : Nurses	27/06/2019	The code of ethics for nurses was developed by International Council of Nurses (ICN) as a guide to carry out nursing responsibilities in a manner consistent with quality in nursing care and the ethical obligations of the profession. The code of

		ethics for nurses was firstadopted by the International Council of Nurses (ICN) in 1953 and revised and raffirmed at 2012 we currently followed, wherein the same is followed by Indian Nursing Council, New Delhi. Considering all those code of ethics for Nurses in Pravara Rural Hospital were developed, which has following elements. 1. Uniqueness of Nursing Care 2. The Nurse respects the rights of individuals as partner in care and Help in making informed choices 3. The nurse respects individual's right to privacy, maintains Confidentiality, shares information judiciously. 4. Nurse maintains competence in order to render Quality Nursing Care. 5. The Nurse is obliged to practice within ther framework of ethical, professional and legal boundaries. 6. Nurse is obliged to work harmoniously with members of the health team. 7. Nurse commits to reciprocate the trust invested in nursing profession by Society And Code of Professional conducted for Nurses in Pravara Rual Hospital as follows 1. Professional Responsibility and Accountability 2. Nursing Practice 3. Communication and Interpersonal Ralationships 4. Valuing Human Being 5.Management 6. Professional Advancement.
Code of Conduct for : Patients	02/08/2019	Advancement. 1: In an effort to provide a safe and healthy environment for staff, visitors, patients and their families,

7.1.7 - Initiatives taken by the institution to make the campus eco-friendly (at least five)

1. The University complies with relevant requirements of the Environmental Protection Act concerned with protection of human and natural resources. 2. The University campus undertakes control measures to protect the natural environment and conserve the resources. 3. Waste disposal procedures at the hospital and campus are guided by the rules and regulations of Maharashtra State Pollution Control Board. The waste is segregated, transported and disposed in accordance to the board norms. 4. Hospital waste is collected and disposed by Registered Waste Carriers- Bioclean Systems India Pvt. Ltd. Ahmednagar (registered with pollution control board). Double Chambered Themax make Incinerator is also installed within the campus 5. The Hospital Waste Management Supervisor carries out regular monitoring of the waste disposal and ensures strict compliance with relevant legislation. 6. Solid Waste is subjected to the composing techniques and the end product is used as manuare for Plantation 7. Waste water is recycled by sand filters and activated charcoal filters. Then the water is disinfected by the hypochlorite solution and then used for the gardening purpose. 8. Domestic waste is categorized into wet waste and dry waste by providing colour codes. Wet waste is further used for composting and dry waste is disposed off to the recycling industry. 9. The campus is maintained lush green with landscaping and regular tree plantation that is looked after by the Horticulture and Garden Department. 10. As a policy matter, cutting down of the trees is prohibited in the campus 11. The campus is a sanctuary to lot of birds and peacocks including some reare migratory birds. Hence, no such activitites endangering these species is carried out in the campus. • Solar water heating system for Hostels and Hospital • Use of Solar Energy • Recycling of waste water for garden. • Tree plantation to preserve the environment. • Donation of trees in place of fancy gifts. • Development of Medicinal Plant gardens. • Swachh Bharat Abhiyan • Rain Water Harvesting Class rooms have been constructed to ensure adequate normal lighting and Ventilation to reduce the energy requirement to bare minimum . Banned on use of plastic bags in the institution premises • Prohibition of Smoking • LED lamps are used to save energy. • Vehicles banned for students in campus premises • Prevention of usage of cell phones in departments. • Prevention of usage of plastics and reduction of paper use.

7.2 – Best Practices

7.2.1 - Describe at least two institutional best practices

Department of Community Medicine has included a rural health survey activity in the curriculum of undergraduate, as most of the medical students are from urban area other states. Objectives: To get real picture of rural living conditions, their health problems, to learn social anatomy and social physiology and to improve communication skills are the main objectives of this activity. Context: Accessibility to healthcare services across rural parts of India cannot be overstated. To educate the rural tribal population for creating awareness on prevention of diseases and health promotion is of paramount importance. We emphasize on providing the rural population the comprehensive healthcare facilities under one roof at affordable price. In these community visits, information about health profile, body composition assessment, environment factors, dietary history nutritional status, socio-cultural factors, are recorded. • Students make rapport with families collect data using predetermined • Needy persons are given health education and referral to our hospital. Practice: • Five families to be allotted to each MBBS students in first MBBS, visit under guidance of Teacher in-charge, Tutors and MSW. In this visit, students record village schedule details and social demographic information in their journals. • Follow up visits in Ist IInd Community postings. In these visits, information about health profile, environment factors, dietary history nutritional status, socio-cultural factors, family planning, immunization status, addictions, consanguineous marriages and vital statistics are recorded. • Students make rapport with families collect data using predetermined and pretested questionnaire during visits. Records (journal) maintained, marks kept for journal in internal assessment /Practical. • Needy persons are given health education and referral to our hospital. • Through various community oral health care programmes our institute focuses on carrying out health check up and screening camps at different remote rural and tribal areas. Community health care awareness programmes like posture correction in schools, physical fitness activities to prevent musculoskeletal disorders, screening for obesity, hypertension, and multidiagnostic camps is done by the faculty and students. Evidence of success: • Benefits to family: Creating awareness about Gram Swachata Abhiyan. • People get information regarding health services available in health centers, Information about special OPD schedule and timings in PRH , Loni. Information regarding health insurance schemes run by Government.MSW helps to connect these families with PRH, Loni. • Benefits to students: Early exposure to rural community: Living conditions, rural environment, and health problems, social and cultural factors. Early clinical exposure. Learn communication skills. Learn responsibilities towards community as physician of first contact. Development of bioethical skills. Overcome language barriers. Research orientation Formulation of aims and objectives, methodology, data collection and analysis, report writing and presentation. • Presentation kills. Skills in handling computer and its application, team work and coordination. • Hands on training in biostatistics- Data collection, data feeding, analysis, making tables and graphs. • Large numbers of patients are reporting for health care check up and treatment at DR.APJAK college of Physiotherapy after the multidiagnostic camps, public health awareness programmes. • People get information regarding health services available in health centres, Information about special OPD schedule and timings in PRH, Loni. Problems encountered and resources required: 1. Time slot given is short .require additional staff vehicles and cooperation from villagers. 2. Complex Trauma care with dedicated trauma team and withemergency trauma ward and ICU 3. Minimal invasive surgeries like shoulder and knee arthroscopies 4. Knee, hip and shoulder arthroplasties 5. Ilizarov fixation 6. Bone tumar surgeries with reconstruction 7. Paediatric surgeries 8. Spine surgeries 9. Early initiation of Breast feeding 10. Antibiotic Holiday to control antibiotic resistance 11. Adoption og Kangaroo Mother care 12. cling wrap technique 13. Use of betadine soaked sterile guaze at IV line 14. Limitations in reaching to the remote part of tribal areas, especially in the

hilly region during monsoon. 15. Language barrier is one of the concerns we face in communicating with tribal populations. Title: 2 Rehabilitation of Spinal Cord Injury Patients at Smt. Sindhutai Vikhe Patil Spinal Cord Injury Rehabilitation centre. Objectives: • To optimize patient's independence, to assist the patient to regain functional status after spinal cord injury. • To sensitized physiotherapy students about significance of the role of physiotherapist in rehabilitation of Spinal Cord Injury • To focus on maximizing the patients capabilities at home and in the community. • To provide positive behavioural reinforcement and improve self-esteem. Context: Accessibility to healthcare services across rural parts of India is inadequate. Low socioeconomic status makes it more jeopardized. To educate the rural tribal population for creating awareness on is of rehabilitation of Spinal Cord Injury paramount importance. We emphasize on providing the rural population the comprehensive healthcare facilities under one roof. • Rehabilitation is planned after consideration of demographic data, Socio-economic status, Neurological level of injury and functional status. Practice: • Detail assessment of patient is done according ISCoS Guidelines • Training on Self care, gait and balance training and education to prevent complications is done meticulously for each patient to promote independence. • Community and home based rehabilitation is given more emphasis to enhance community integration Evidence of success: • Few patients participated in wheelchair marathon, as a symbol of community integration. • Some patients have started new jobs (own business) and some resumed their previous jobs. Problems encountered resources required: • Less awareness regarding rehabilitation of Spinal Cord Injury Patients in rural population. • Spinal Cord Injury is permanent disability hence its difficult to maintain exercises adherence due to png term treatment. Title: 3 Building Strong Community-Academic Partnership Objectives: 1) Promoting a Community Laboratory for Faculty and Students of the Centre for undertaking their academics, training and research 2) Faculty and students of the University engage the local community in planning academics, training, research activities 3) Providing healthcare services including maternal and child health care, to the needy rural and tribal community by the faculty and students of the Centre Context: Rural and Tribal Areas Practice: Adopted 250 villages for promotion of Community Laboratory by creating Community level Primary Health Care Infrastructure (Rural Tribal Health Centres, Mobile Clinics, Motorbimeambulance-cum-health clinics, Gram Arogya Banks, Trained Community Health Workers (Female Health Volunteers /ArogyaMitra's) and Trained Members of Gram Panchyat and Village School teachers and students. These Community Structures are used as (1) learning resources for community oriented teaching, learning and research pursuits of all students of the six constituent units including medical, dental, nursing, physiotherapy, public health, social work students and (2) The Faculty and students of the University are engaged in capacity building of the Community Members in Primary Healthcare and Health educational, and promotional activities, (3) The Community Health Centres Clinics provide Primary Health Care to the needy rural and tribal people of the area. Evidence of success: 1) Adopted 250 rural and tribal villages to engage 6 lakhs community members and their representatives for building Community-Academic Partnerships 2) Established Eight Rural and Tribal Primary Health Care Centres which serves 58600 needy general patients and 56627 Maternal and child health care patientslaboratory services during 2019-20 3) Established Two Mobile Hospitals, Six Motorbike Ambulances-Cum-Health Clinics which serves 7045 needy general patients, 9219 MCH patients, 649 Emergency Patients during 2019-20 4) The ArogyaMitra's have referred patients from villages to University Tertiary Hospital for further treatment 5) Established 16 Gram Arogya Banks which provide primary healthcare services 3664 patients during 2019-20 6) The Faculty Students trained 32 ArgyaMitra's117 PRI Members, 5627School Teachers Students 7) The Arogya Mitra's /FHVs are engaged in community /household data collection of the research studies of the Centre 8) Medical Interns, Nursing Interns are

posted for their rural internship and Medical, Dental and Physiotherapy PGs conduct specialist clinics in the Health Centres Mobile Clinics 9) All UG students of Constituent Units do visit above rural and tribal health centres, mobile clinics, and other community health service centres and interact with the community members and engage them in their learning 10) UG, PG and PhD students of Constituent Units do undertake their dissertation research topics and research project activities with active interaction of the local community members Problems encountered resources required: 1) Lack of adequate involvement of the community members in the activities planned and hesitation to take up the defined roles and responsibilities 2) Problems in raising resources for creating and maintaining community infrastructure Title: 4 Mutually beneficial international cooperation/collaboration for public health training, research and practice Objectives: 1. Develop appropriate academic, training and research ecosystem for international faculty and students in the field of public health, rural health and development 2. Acquire adequate understanding of the concept of rural health social development in a developing country 3. Expose to the practical constraints of managing rural health and development projects in urban and rural community 4. Develops skills necessary to make social and community diagnosis 5. Undertake need based and problem identification short term research projects Context: Rural, Tribal Urban Practice: The course is specifically designed for International students covering their interest on conceptual understanding and practical learning in various aspects of social health rural and community development, primary health care and health of the

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

https://www.pravara.com/pdf/best_practices_2019_20.pdf

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Pravara Institute of Medcial Sciences(Deemed to be University) : • The University has a vision to emerge as a centre of Excellence in continuous pursuit of Quality by providing Internalionally compliant higher education, especially in the field of Medical, Dental, Nursing and Allied Health Sciences. • University also has vision to evolve according to the changing needs of time and place with the focus to serve the society including rural and tribal population. • The University has six constituent institutions who contribute to achieve the vision, mission, and priority and thrust areas of the Univeristy. • University promotes the value based education and research driven health care. University is foucsing on the community oriented health science education. • The main focus of the University is to strengthen the Community Academic Partnership through community oriented Medical, Dental, Nursing, Physiotheapy, i.e health sciences education. we believe the philosophy of empowering the rural and tribal villages with the support and guidance from all the constituent higher educational institutes. • Our distinctiveness is innovative and intergrated primary healthcare with the unique models of Female Health Volunterers (FHV), Arogya Mitra, Arogya Bank, Motorbike Ambulance, Mobile Medical Unit and Rural Health Centres, secondary and tertiary health care to them as well through our state of the art tertiary care hospital. • We are distinctive in Tribal Health care delivery with intergration of Traditional Birth Attendants, Traditional healers and ayurveda as well as modern allopathic practioners. • We have a networking of over 350 villages for health care and development of villages. Rural Dental College: • The vision of Rural Dental College is to establish an institute of an excellence of dental education and research of global standards and to provide an affordable dental health care to

the rural and poor population and to fulfil the dental healthcare needs of rural and tribal population. • The Institute also has vision to evolve according to the changing needs of time and place with the focus to serve the society including rural and tribal population. • The institute contribute to achieve the vision, mission, priority and thrust areas of the University. • In order to achieve the objective of teaching the students with value based and globally equivalent skills, the curricular, co-curricular, and extracurricular activities are geared up to the fulfilment of goals and objectives. • The institute has the updated infrastructural facilities and learning resources and to keep in pace with the intensifying science for an effective and smooth execution of teaching- learning and research. • The main focus of the institute is to strengthen the Community Academic Partnership through community-based Dental health education. • The extension activities contribute to the improvement of oral health at individual and community level and the advancement of dental health sciences in the nearby villages. • We believe the philosophy of empowering the rural and tribal villages with the support and guidance from all the stakeholders. • We have a networking of over 350 villages for health care and development of villages. Dr. APJAK College of Physiotherapy Loni: Vision- To become an outstanding Physiotherapy College that provides urban facilities to rural people as stated by Dr.A.P.J.Abdul Kalam in his vision Mission - To offer value based Physiotherapy education and evidence based Physiotherapy services. • Institution is providing rehabilitation to Spinal Cord Injury patients in holistic manner which includes medical, physiotherapy management, Yoga /meditation and community integration. • Community services are offered to urban, rural and tribal population through urban, rural and tribal health centres. • Students were also trained to give services at the community level through various extension activities such as old age home visit, industrial visit, school visit (SHHAPE Camp), participating in various multidiagnostic camps and Gram arogya bank activities in collaboration with Centre of Social Medicine. • Students are trained in organizing and participating various activities through celebrating various international health days such as World Heart Day, World Cerebral Palsy Day, World Spinal Cord Injury Day and World Stroke Day. • Academic debate and world cafe are the new pedagogy methods practised to provide physiotherapy education to students. • Dr A.P.J. Abdul Kalam College of Physiotherapy has an International collaboration with Karolinska Institutet, Sweden. • College of Nursing, Loni: • Pravara institute of Medical Sciences DU, College of Nursing Loni located in Area of Rahata Taluka always motivating Parents for encouraging their daughters to pursue primary to higher education by counselling session in secondary school. It is very much importance in the overall progress and development of the institution. With this view our college has its own mission statement accordingly we always try to function uniquely, innovatively and distinctively from the other institutions. As far as our Mission and Vision is concerned, college always tries to implement the distinctiveness in the work. Our college has a large number of students from the surrounding villages. The numbers of girl students are less in number with male students. Most of the students from rural areas poor background, but they are not poor in talent, knowledge and humility. Our college staffs identify their talent and encourage them as per our mission statement, 'our aim is to bring the girl students into the main stream of higher education'. • This institution was established in the year 1986, and the main aim was to provide an opportunity to rural students of this area especially the rural girl students to pursue higher education for development and progress of the family. In accordance with mission statement PIMS gives exposure to the girl students to get an opportunity to participate in every curricular, extracurricular and extension activities. Through the NSS, SHARE and CARE, LEARN and EARN scheme the girl student get a stage and dais to develop their academic as well as professional, cultural, social consciousness, alertness, responsiveness. We also provide the clinical experience in 1275

bedded multispecialty our own hospital Student welfare offers them the schemes to earn their own by participating in earn and learn scheme to fulfil the partial fees of the education and they can stand on their own independently. Even girls students take active part in each and every curricular and co curricular activities. We also have exchange programme and International collaborations and students get exposure to experience our 5 faculties and 4 students have benefited with this exchange programme at Sweden, Dublin and Spain universities • The college organizes the women empowerment programs for making them confident enough to struggle the battle of life. Various eminent woman personalities are being invited for the guidance on several issues. Special health related Seminars, work shop were organized and health check up camps, poster exhibition, Rangoli competition, nutrition exhibition has been organized to find out the health issues and provided them with community oriented nursing education. The college always considers the background students as a central input and strength of the institution. Many girl students are benefited for exemption of tuition fees as a help to support the family financial crisis. Bharari is annual magazine of College of Nursing, PIMS Loni. It was started in 2006 with the annual report of college of nursing and its achievement. Student and faculties gets chance to write the articles, poem so they develop their hidden potential and hobbies apart from the curricular aspects. All the specialty wise departments present reports in the college magazine with the steps of success and achievement. There is also separate section for all class wise, faculties, non teaching staff, all committees and cultural event photos. Centre for Biotechnology Loni: • Innovative Curriculum (Choice Based Credit System clinical research as elective) Extra Credits for cocurricular and extra-curricular activities • Research on Tribal Health in Collaboration with Drake University

Provide the weblink of the institution

8. Future Plans of Actions for Next Academic Year

Items/Points Future Plans of action for next Academic year (500 words) A) Academic Administrative And Infrastructure Up gradation Pravara Institue of Medical Sciences (Deemed to be University), Loni A) Academic Administrative and Infrastructure Upgradation • Development of the Hospital as Super-Speciality hospital catering the services at reasonable rate and make the hospital a site for "Rural Medical Tourism". • Super speciality courses-training in Comprehensive Ophthalmology, SICS, Phacoemulsification surgeries, training in Lasers and Oculoplasty. • Establishment of low visual aids and rehabilitation clinic for visually impaired. • Upgradation of treatment planning system software for external beam planning and brachy therapy planning. • Expanding the existing mycology laboratory. Newer diagnostic methods. • To start cardiac anaesthesia, paediatric anaesthesia and critical care fellowship. • Interventional Radiology (3 Tesla MRI Machine ,DR System ,high end USG Machine) • Complete automization of central clinical laboratory. • To establish a fresh tissue dissection laboratory in collaboration with clinical department. • New modernized NICU. • Obsttetrics Gyneacology has a plan to start value added courses and new services in the form of additional speciality clinics for adolescents and teenagers. • Augmentation of the skill lab to meet the demands of the present competanery Based and Outcome driven Health Sciences Programmes by inclusion of Simulation and Virtual Reality Lab. • To establish a Physiotherapy research lab. To start mobile physiotherapy clinic for outreach areas • To encourage inter-departmental research programmes. • M.P.T in Sports physiotherapy to be added in Post graduate syllabus will be implemented from the next upcoming year. • To facilitate students to do qualitative research studies in collaboration with Karolinska Institutet, Sweden. Rural Medical College, Loi • Development of toxicology garden • Upgradation of Departmental Museum • Outdoor museum for community Medicine • Digital question

banks for UG PG • Indroduction of more value added course which will be useful for community. • Expansion of range of molecular testing to help the rural population in and around Loni. • Fellowship in neonatology • Fellowship in paediatric intensive care Rural Dental College, Loni: • To create more facilities to diagnose oral cancer precancerous lesions in patients with oral habits. • Establishment of Immunohistochemistry (IHC) lab, which is an advanced diagnostic laboratory technique widely, used for diagnosis of undifferentiated tumors, soft tissue tumors of head neck area. • Acquiring little more knowledge through courses in Advanced Oral biology, genomic technologies etc. particularly in foreign universities will give a MDS oral pathologist to understand translational research and can merge industry with science. • Infrastructure Up gradation • Establishment of research lab: Procurement of and maintenance of equipments for research Dr.APJAK College of Physiotherapy, Loni: • Order of Physiotherapy equipments has been made. The order is sanctioned and has been given to the Purchase Officer for further process. • Some of the Electrotherapy equipments to be purchased include Ultrasound, Electrical Muscle stimulator, Interferential therapy unit, and TENS units. Some exercise therapy equipments which will be purchased include Arm ergometer, Digital perineometer, Digital inclinometer, electrically operated motorized tilt table etc. This will facilitate teaching as well as research. • College of Nursing, Loni: • Start a Post-Doctoral Fellowship programs under PIMS DU • Plan to establish collaboration with foreign universities for higher studies and exchange programme. • Plan to upgrade the computer lab with LAN and WiFi connectivity facility . Plan to upgrade the classroom facilities with new benches and AV aids • Centre for Biotechnology, Loni: • Strengthening Academic Programmes by increasing the intake of the students. • Centre for Social Medicine, Loni o Renovation, relocation and upgradation of Public Health Laboratory and Public Health Museum of the Centre. o One more new Lecture Hall is proposed • 3) Starting eLearning diploma and certificate courses in (a) Epidemiology and Biostatistics, (b) Statistical application using computer softwares like SPSS, SAS, R Programs B) Research: Pravara Institute of Medical Sciences(Deemed to be) University, Loni: B) Research: • There is lot of scope to researcher for Ph.D in Medicine in the rural based studies. • Taking into consideration the multiplicity of diseases presenting to the hospital there is scope for inviting the multi-centric international /national clinical researches. • Establishment of yoga practice for the students and conducting research work on it. • Studying and Diagnosis of emerging and re-emerging infections • MOU with Indian National Reserach Centre. To apply for Centre for Excelence of Ministry of Tribal Affairs, GoI, India • To conducte a National Conference on Tribal Health Research • To conduct a International conference on Social Innovations in Global Public Helath and Nursing Care. To strengthen the Centre for Research in Tribal Health and Services. Rural Medical College, Loni: • Increasing STS-ICMR and Pravara STS projects • Trained faculty for research methodology workshop • Research paper publications in Indexed journals by faculty and students Rural Dental College, Loni: • To establish International/National MOU's for professional collaboration with reputed institutes organizations for research laboratory up gradation. ulletWork on research project with Hebrew University other universities with which MOUs are signed. • To increase the publication in scopus, Wos, Pubmed UGC care journals • To undertake research projects for UG, PG, students Faculty Dr. APJAK College of Physiothrapy, Loni: • Taking into consideration the multiplicity of diseases presenting and patient care in the hospital there is a Scope for multidisciplinary research addressing wide spectrum of contemporary and future issues in medical and health sciences and rural oriented problems and encouraging funded projects. • Research should include biomedical research, epidemiological studies, and health services research as well as studies of behavioral, social, and economic factors that affect health. • Establishment of regular physical activity programme like group exercises, yoga practice for the health care professionals and students and conducting research work on it. • To enhance

Collaborations and MOU with Research Centres and NGOs. • To organize National/International conferences in Physiotherapy Research • To strengthen the Research in rural and tribal community health and services. • Encouraging the faculty members for Ph.D in Physiotherapy in the rural based studies. • Referring to the appropriate sources from the journals and more recently internet access, a fair idea of results in comparable situation from other resources is obtained. Collge of Nursing, Loni: • Starting a separate journal for nursing sciences, and make index journal and include in the UGC care list journal. • Conduct collaborative research (clinical and epidemiological) with other institutes and departments with help of funding agency Centre for Biotechnology, Loni: • To publish research articles in National International indexed journals. • To increase collaborative projects / Consultancy • To Seek Research Grant/ Fund • To expand the Tribal Research Study Centre for Social Medicine, Loni: • 1) Impact of mHealth initiative on the maternal outcome of tribal women in selected three blocks of Nashik district C) Qaulity Initiavtives: Pravara Institute of Medical Sciences(Deemed to be) University, Loni: C) Qaulity Initiavtives: • Getting an accreditation by NABH NABL · Procurement of equipments to enhance research activities in the following departments: Orthopedic physiotherapy department -Continuous Passive motion machine, Ultrasound machine, Laser, Transcutaneous Electrical Nerve Stimulation, Contrast bath, Short wave diathermy, Interferential therapy, Traction Unit, Cryotherapy Unit- Cold pack, Paraffin wax bath, Combo unit Vaccum, Gait Analyzer and Microwave diathermy • Neuro Physiotherapy Department -Two channels EMG with analyzer/NCV machine, Electrical Muscle Stimulator, Power wheel chair, Transcutanoeus Electrical Muscle Stimulator, Virtual reality equipment. Bio Feed Multi Stimulator and Nintendo Wii feet balance board • Rural Medical College, Loni: • Maintaining the quality of work in the lab in accordance with National and International standards. • Digitalization of Medico legal services offered by FMT department • Interlinking the digitalized hospital related medico-legal services, laboratorial and radiological investigations with mortuary block. • Improvement in field research and introducing qualitative research. Dr. APJAK College of Physiotherapy, Loni: • To Organize workshops on IQAC for teaching and non teaching staffs College of Nursing, Loni: • Organize a national, state and Institute level FDP's • Organize a quality initiative workshops under IQAC • Plan to have regular Academic and Administrative Audit Centre for Biotechnology, Loni: • To organize quiz programme on skill development in Molecular Biology and other techniques. D) Extension and Out reach: Pravara Institute of Medical Sciences(Deemed to be) University, Loni: D) Extension and Out reach: • Generate awareness among masses regading bodiy donation • Community Oriented Physiohterapy Education (COPE CODE) Rural Medical College, Loni: • Increasing activities Rural Dental College, Loni: • Prioritizing education of oral hygiene and health education among tribal area. • Covering Tobacco awareness among more people of rural area, and providing • Extensive behavioural counselling help to those in need. • Conveying Oral hygiene importance and proper brushing technique in children of • Every school possible in our reach. Dr. APJAK College of Physiothrapy, Loni: • Catalysing the acquisition of values of public service and active citizenship among students. • Identify community health problems and its priorities. • Develop problem solving and research methodology skills for community healt Promotion. • Undertake Undertake Community oriented research projects. • To develop values of public service and active citizenship among student's field visits, health awareness camps, disability camps and cleanliness camps will be organised in nearby villages and in tribal area .These on site field activities will sensitise the students about health problems and health priorities in India. • Through Community Oriented Physiotherapy Education (COPE) students will encouraged to participate in the community based research projects. We are intended to link learning with community physiotherapy Field based learning will may lead to genesis of social innovations. It focuses on comprehensive approach to health care which includes health promotion, prevention and rehabilitation not curative approach only to formulate the concept of health

for all (health level leads to social and economic productive life). • In future students will be thought about Sustainable Development Goals (SDG) of United Nations and Rehabilitation 2030 of WHO through different community extension activities. College of Nursing, Loni: • Organize numerous NSS and Swach Bharat Abiyan activities through department of community health nursing • Follows family adoption scheme for the UG students and referral services • Develop MOU with industries and government primary health centres • Plan to carry out ISR and CSR activities and observation of health days Centre for Bitechnology, Loni: • To organize field work activity for the students related to academic and health. Centre for Social Medicine, Loni: • 1) Establishment of Medicinal and Herbal Gardens and Processing Unit in Loni Bhandardhara Tribal Campus E) Student Support: Pravara Institute of Medical Sciences (Deemed to be) University, Loni: E) Student Support: • Conduct collaborative research with other other Deparments and Institutes of PIMS-DU • Start Post Doctoral Fellowship programs in various disciplines. • Establish more international collaboration with foreign universities • Establish Foreign Service Entry Examination coaching centre (CGFNS, IELTS, NCLEX) CLEX) Rural Medical College, Loni: • Creating interest and involving more and more students in field research and extension activities. Rural Dental College, Loni: • Increase in Value added courses for UG PG students Dr. APJAK College of Physiotherapy, Loni: • Student Support defines aims to understand how College can feasibly deliver support both inside and outside the classroom to improve success for all students. Directing the students regarding their goals making them understand to be focused to achieve what their aim/ their goal is. Engaging the students in curricular as well as extra-curricular activities. Enhance the number of smart class rooms in the academic departments and strengthening the peripheral outreach programs for students to foster greater engagement with community and for Social Responsibilities. Supporting overall academic success of students by ensuring high quality academic Counselling and giving additional academic support to the students who are falling behind. Expanding tutoring and other academic assistance program. Also creating opportunities for students to gain knowledge, skills and credentials by adding new programs and expanding the current program. Augmenting already advanced teaching learning methodology adapted by the college through introduction of more e content/ e learning material in the courses of study. • Adapting innovative and participative learning. Augmenting the e-infrastructure of college with state-ofthe-art technology. Organize State/ National and International level Seminar, Conference and Workshop for students and teachers for enhancement of academic efforts. Promoting the Research activities among Students and increasing extramural research funding and collaboration and to increase paper publications in Scopus/ Web of Science indexed journals. Educating and encouraging students for Environmental issues by Soil filling in the extended college area and plantation of trees. Encouraging more cohesive student teacher parent interaction, thereby making the academic discourse more transparent and disciplined. Strengthening and Extending the Library. Developing a Wi-fi enabled campus and using ICT in learning and teaching practice. Also establishing network resources centre. • Conducting a training program related to Institutional Values and Best Practices, gender sensitivity. Maintaining and increasing infrastructure facilities. Enhancing coaching for competitive examination, counseling for career guidance and placement cell. Boosting students to participate in cultural and games and sports at state, national and international level. Providing scholarship and other financial assistance. College of Nursing, Loni: • Enhance the seats of BSc nursing for career opportunity to rural students especially females • Establish Foreign Service Entry Examination coaching centre (CGFNS, IELTS, NCLEX) CLEX) • Offers all nursing courses under one roof i.e. GNM, BSc, PBBSc, MSc and PhD Nursing courses, and active alumni association (SMRUTI) • Offers earn and learn scheme, fee concession and scholarship for deserving candidates Centre for Biotechnology, Loni • Provide future guidance through mentoring in national and international competitive examinations • Centre for
