

PRAVARA INSTITUTE OF MEDICAL SCIENCES PRAVARA RURAL AYURVED COLLEGE

DEPARTMENT OF AGADTANTRA

VISION

To establish Agadtantra (Ayurvedic Toxicology) as a globally recognized branch of Ayurveda that integrates traditional wisdom with modern scientific advancements for the prevention, diagnosis, and management of poisoning, toxic exposure, and environmental hazards.

MISSION

1. Preservation and Promotion of Traditional Knowledge: Revive and promote the classical Ayurvedic principles of Agadtantra for the effective management of poisons and toxins.
2. Integration with Modern Toxicology: Combine ancient detoxification methods with modern scientific approaches to enhance treatment outcomes.
3. Education and Research: Encourage in-depth research and academic advancements in Agadtantra to develop evidence-based solutions for toxicological conditions.
4. Public Awareness and Preventive Measures: Spread awareness about household, environmental, and occupational toxins and promote preventive healthcare through Ayurvedic detoxification practices.
5. Sustainable and Holistic Approach: Advocate for the use of herbal formulations, dietary modifications, and lifestyle practices to mitigate toxic effects naturally and sustainably.
6. Collaboration with Healthcare Systems: Work alongside conventional medical systems to establish an integrative approach in toxicology management and emergency care
